

Dear Administrator;

When examining the ownership rule as it exists, one need only look at the fact that there were absolutely no broadcast media in the Seattle market who made any announcement at all that there was going to be a hearing before an FCC panel at the U of W until after the meeting was over, effectively eliminating my opportunity to attend and make a public comment on the multiple ownership issue. If this is not regulation-based collusion and suppression by big media ownership, then I must have woke up this morning in Iraq.

Thank You

Skye Mitchell
unemployed DJ with no opportunity in Seattle
